

Canvas Studio

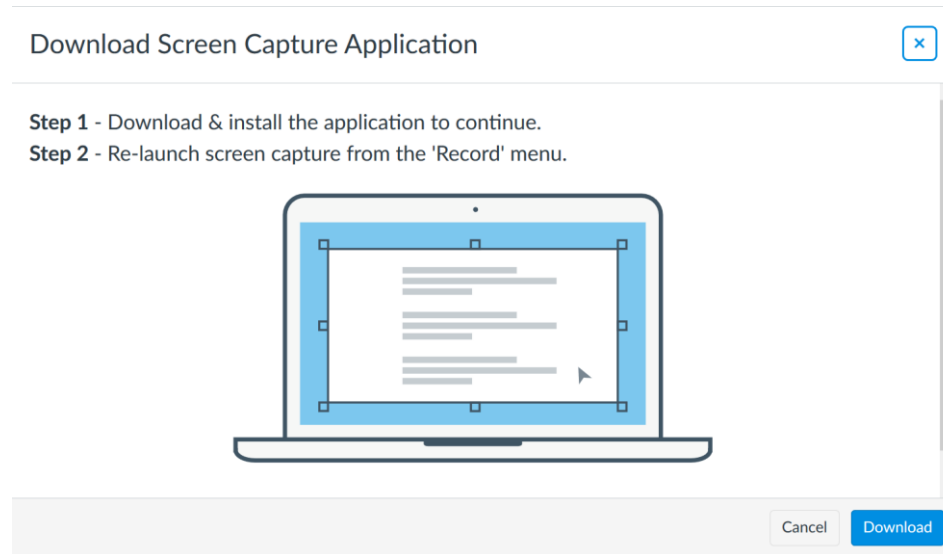

Step 1

- 1) Press on the Studio button on the left column
- 2) Press the Record button.
- 3) Then press the Screen Capture.

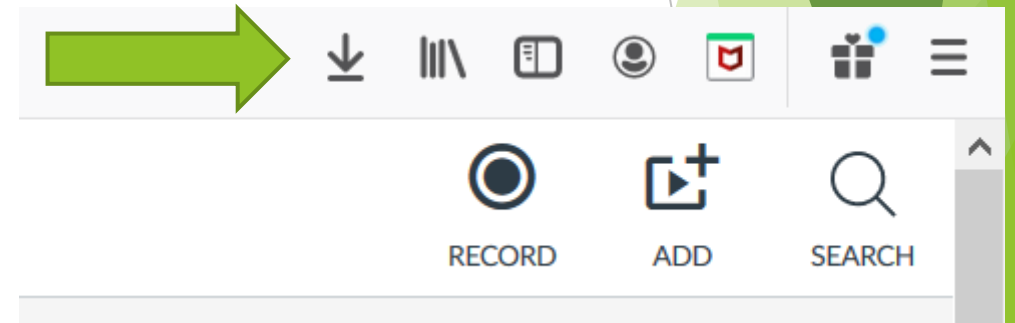

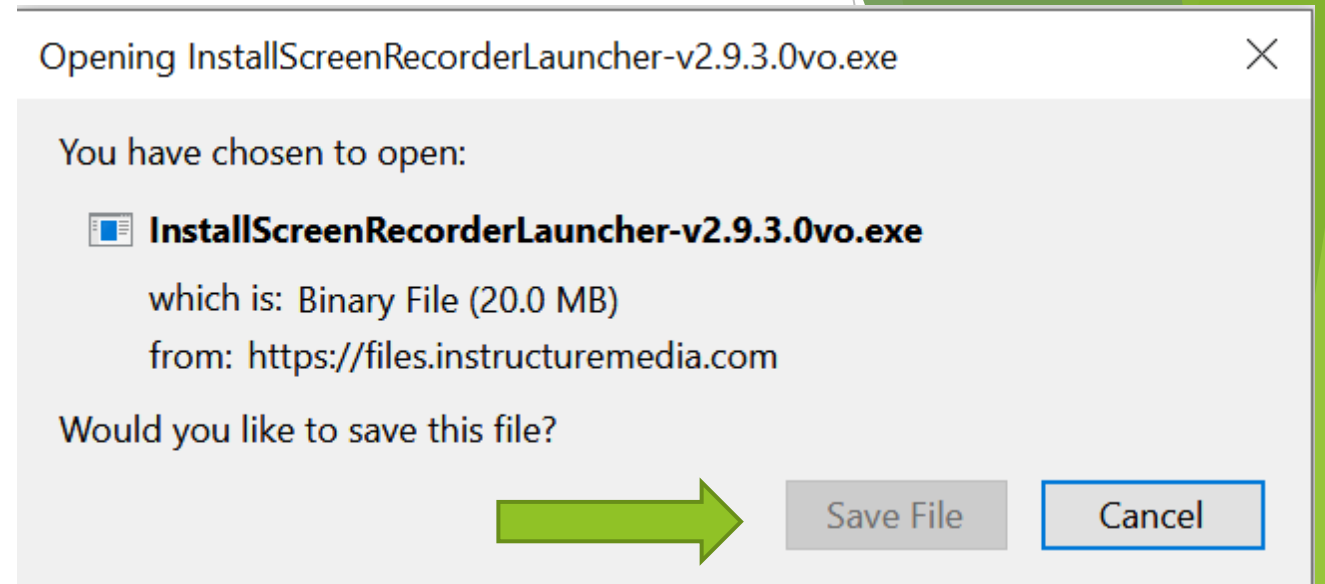

Step 2

You will get this window. Press “Download”

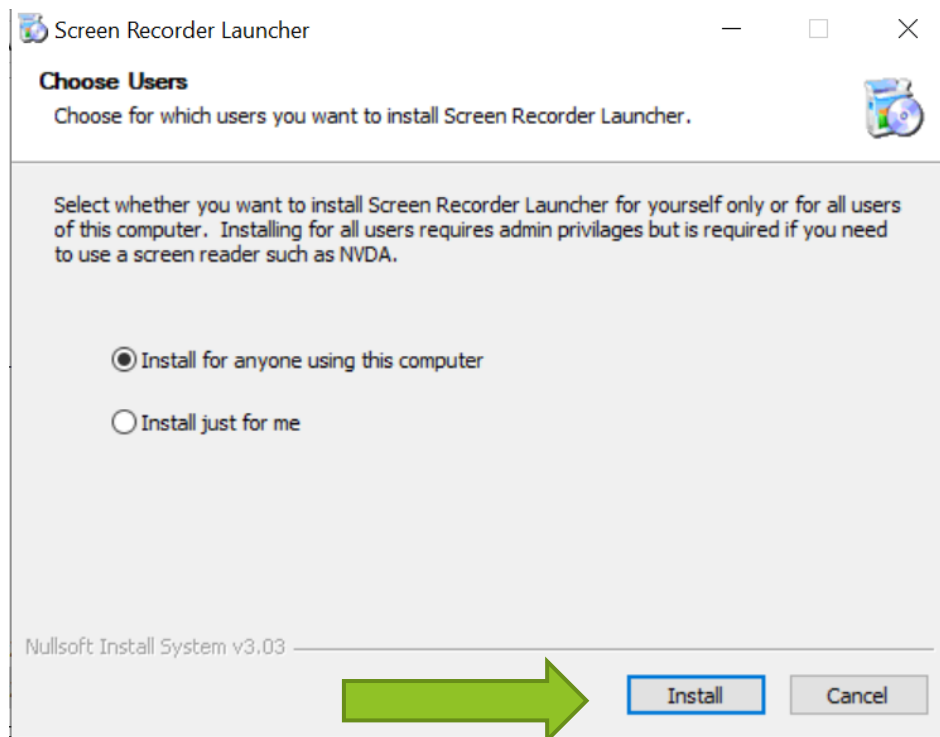

Step 3

Save File and then open the file where you downloaded it.

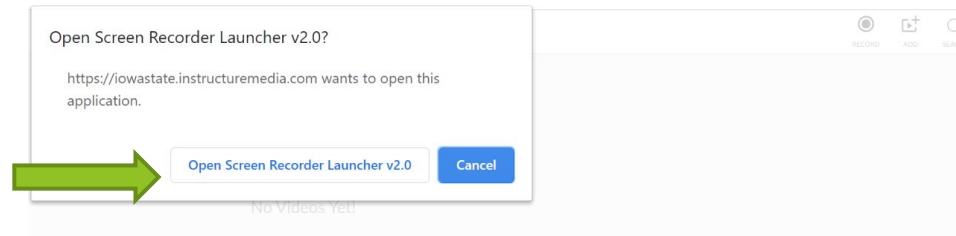

Step 4

Install

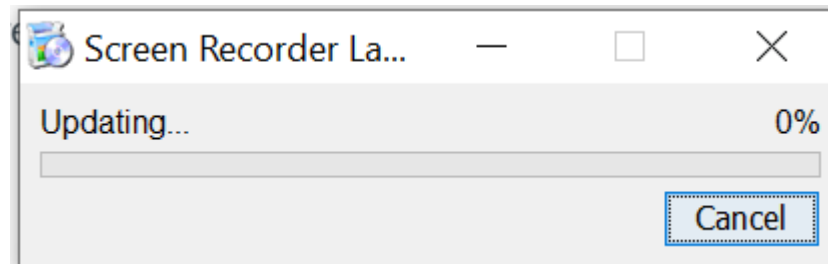

Step 5

After installation is complete, go back and press the “record” button again. You will get this window. This window may show up every time you press to record.

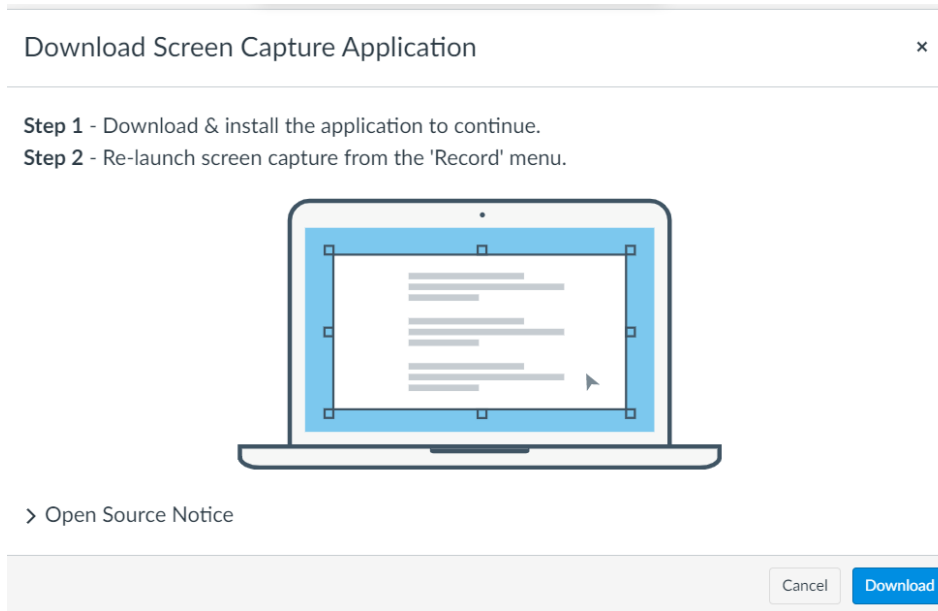

Step 6

Screen Recorder Launcher will begin to download.

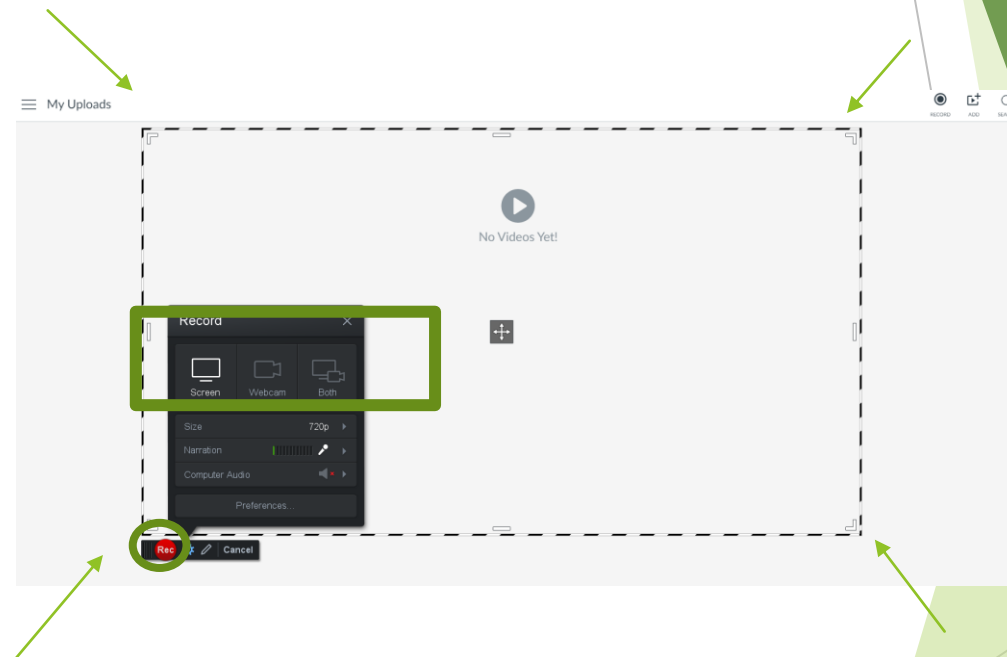

Step 7

Close this window if it shows up while Screen Recorder Launcher is downloading.

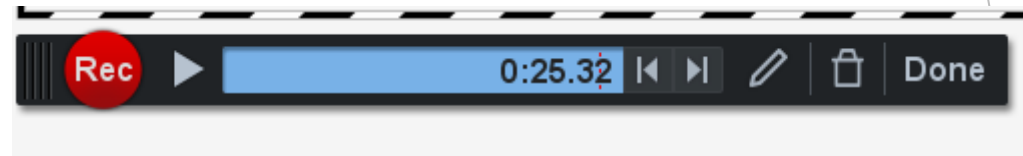

Step 8

1. Once the launcher is complete, the screen recorder will open. Adjust what you want to capture on your screen.
2. Choose to record screen only, Webcam only or both.
3. Press *Record* once you are ready

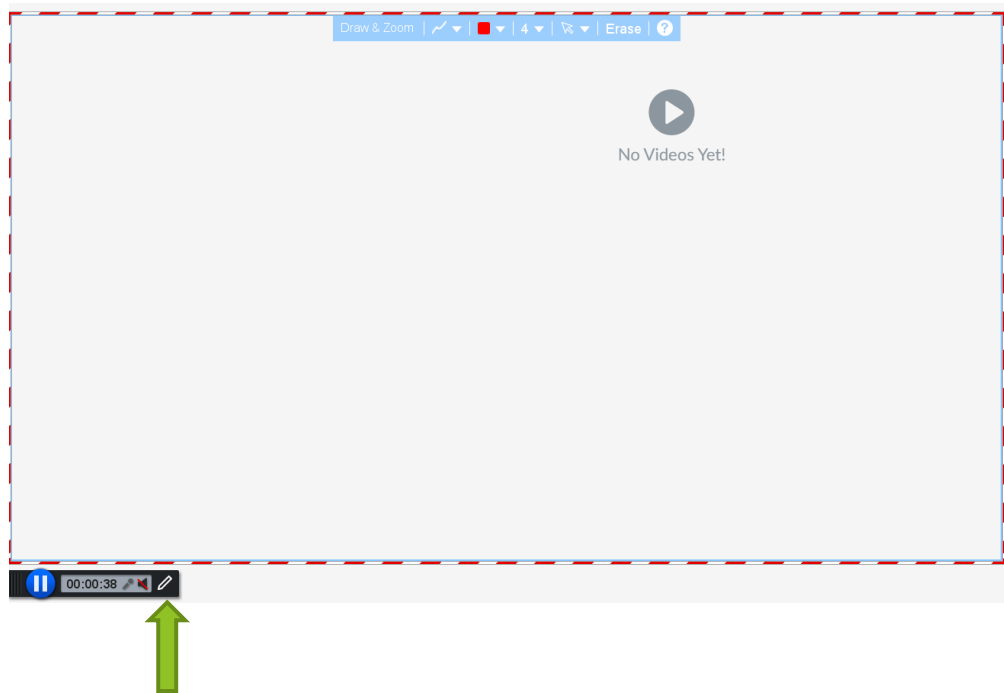

Step 9

You can press Pause if you need to and then press Record to continue recording.

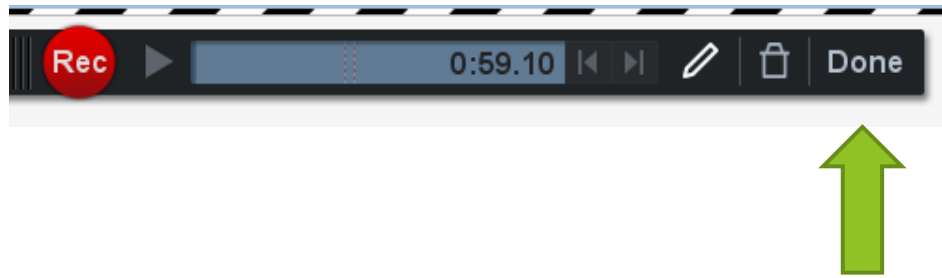

Step 10

You can Draw & Zoom while screen recording by pressing the pen button.

Step 11

Once you have completed the recording, Press Done.

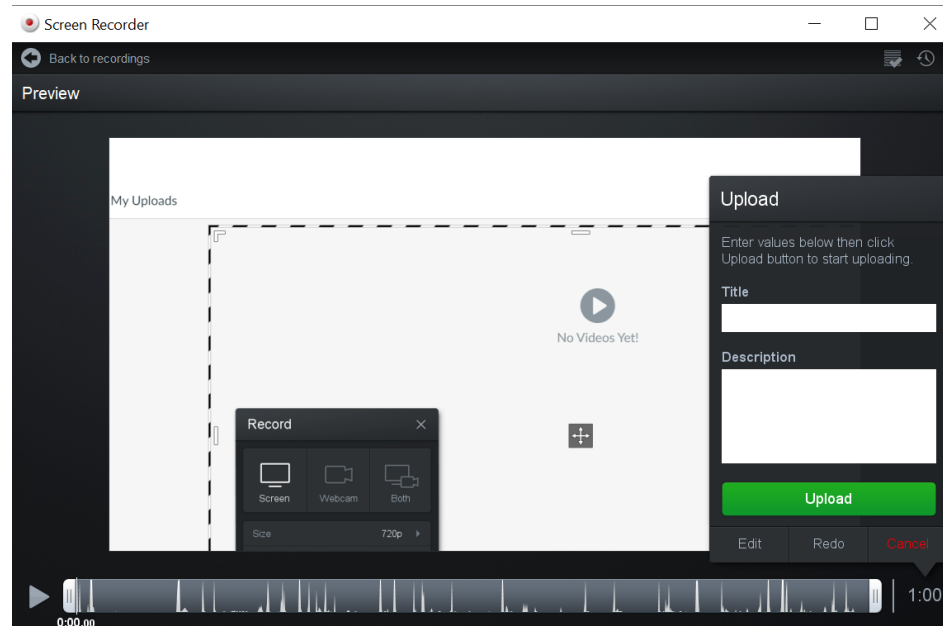

Step 12

You will get this window where you can give a title and a description to your recording.

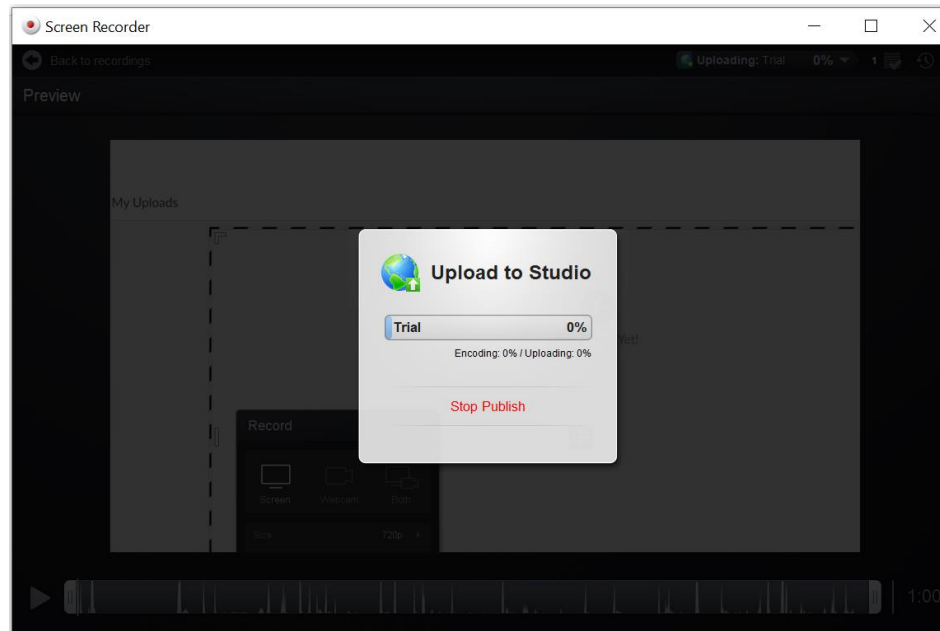

You can also edit the video if needed.

Once you are satisfied, press *Upload*.

Step 13

Press *Continue* once upload is complete.

Step 14

Now your recording is saved in Studio. Every time you enter Studio you can choose from your saved recordings.
